

UK toner cartridge remanufacturers were invited by the independent testing laboratory 'Business & Equipment Research & Test Laboratory' - BERTL - to submit their product for quality and yield comparison with the original product as the benchmark. The results, as published by BERTL, are set out below -

HP 92298A (Standard Life)

% HP Benchmark:	100% for our Standard Life Test, HP cartridge forms the benchmark
General Comment:	Some white spotting on image
Toner Grams Used:	277
Page yield:	4442
Text:	Crisp at 4 point
Colour Differentiation:	Poor
Toner Clash:	Virtually none
Coloured Text on Colours:	Poor
Banding:	Slight
Grey Scales:	Low
Photo Images:	Slightly dark & grainy but had definition

KLEEN STRIKE, (Standard Life)

% HP Benchmark:	110.8%
General Comment:	About the best overall quality, though some ghosting appeared on heavy graphics (page one image was slightly visible on page two) But was not visible on standard text.
Toner Grams Used:	309
Page yield:	4890
Text:	Crisp at 4 point
Colour Differentiation:	Very good
Toner Clash:	Very, very slight
Coloured Text on Colours:	High
Banding:	Negligible
Grey Scales:	The best of these tests
Photo Images:	Extremely good
